

Company Travel and Expense Policy - Effective January 1, 2025

1. Flights and Accommodation

1.1 Air Travel Class

All employees are required to book Economy class for flights under 6 hours. Flights exceeding 6 hours may be upgraded to Premium Economy, provided the cost increase is less than 40% of the standard Economy fare. First Class travel is strictly prohibited for all domestic and international routes.

1.2 Hotel Bookings

Employees must use the corporate booking portal (Portal X) for all hotel reservations. The maximum allowable nightly rate for accommodation is \$200 USD, excluding taxes and local fees. Any exception requires prior approval from a Department Head.

2. Meals and Daily Expenses

2.1 Daily Meal Allowance (Per Diem)

The maximum daily per diem for meals is \$75 USD in North America and \$100 USD in Europe. This allowance is intended to cover breakfast, lunch, and dinner. Receipts must be kept for all expenditures, even if under the per diem limit.

2.2 Incidentals

Incidental expenses, such as taxi fares, parking, and public transport, are covered up to a maximum of \$50 per day. Ride-share services (e.g., Uber/Lyft) are allowed if the cost is comparable to a standard taxi fare.

3. Expense Reporting

3.1 Submission Timeline

All expense reports must be submitted within **14 calendar days** of the trip's completion date. Reports submitted after 30 days will be automatically flagged for review and may result in delayed reimbursement.

3.2 Required Documentation

The report must include original receipts for all items over \$25, detailed purpose of the expense, and the digital flight itinerary. Meal expenses under \$25 do not require a receipt but

must be itemized.

3.3 Reimbursement Method

Reimbursements are processed via direct deposit only. Employees must ensure their bank details are updated in the HR portal (Workday). Processing time is typically 5-7 business days after approval.
